OVERVIEW

United Way of Broward County is an architect of solutions for challenges faced by many people in our community. Many organizations focus on one cause, but United Way really looks at the community as a whole and in a collaborative effort, creates solutions.

United Way of Broward County, along with community volunteers who are experts in their fields, identifies specific gaps in services and then seeks partners and funds to develop programs delivering measurable results. Through a collaborative approach, the best people, ideas, talents and resources are brought together to tackle complex challenges head on and create long-lasting positive changes in Broward County.

MISSION

To focus and unite our entire community to create significant lasting change in the impact areas of Education, Income and Health – the building blocks for a better life – which positively impacts people's lives.

VISION

United Way of Broward County will be the catalyst for change and convener of partnerships that unite hearts, minds and resources within our community.

EXECUTIVE LETTER

Dear United Way of Broward County Supporters,

The past year was one of great challenges and opportunities for Broward County. United Way of Broward County responded to these issues aggressively. We invested more than \$18 million in our communities through coordinated work in our six impact areas: Youth Success, Financial Stability, Improving People's Health, MISSION UNITED, Emergency Needs and Substance Abuse Prevention.

United Way of Broward County's true strength comes from focusing on the needs of our community as a whole. Instead of working on one challenge, we concentrate on many of them to support our neighbors across the county. This way, your donation helps the high profile need everyone is aware of, but also supports the issues less obvious, but no less important.

During the 2014-2015 fiscal year, United Way continued to extend its reach in Broward County through its partnerships, initiatives and programs. Since its inception in 2012, ReadingPals volunteers have nearly tripled their volunteer hours ensuring more children are reading at grade level. Project Lifeline has provided more than 450,000 food insecure families and individuals with nutritious food, including fresh produce.

Since its inception, MISSION UNITED has served more than 2,000 veterans and their families with the services they need to re-acclimate to civilian life. In addition, five United Ways across this nation have adopted the MISSION UNITED program and are serving veterans in their area. There are over 30 more local United Ways currently looking at the program for their area which was created right here in Broward County.

We are very proud to play a leadership role in Broward County and are grateful to our supporters and community partners for their continuing endorsement and participation in our work. On behalf of United Way of Broward County, we present this recap of a challenging and incredible year of making Broward County a better place to live, work and play.
